Photos Tell In Dramatic Fashion What Happens When Rules for Traffic Safety Are Forgotten

A balloon and doll bring little solace to Yvonne Scodellaro, 6, of Detroit. She received possible neck and skull fractures from auto which killed her grandfather as they were crossing the street.

Elaine Knopatzki, 2½, must spend her summer with legs upended in traction cast. While playing in paved alley near her Detroit home, she was struck by an auto, suffering a broken leg.

## Red Planes Aid Invasion Of Mongolia

(By The Associated Press)

NANKING, June 10.—The official Central News agency today said government military sources confirmed reports that Outer Mongolian troops, supported by four Soviet warplanes, invaded Sinkiang province Thursday.

The agency said the Mongols had penetrated to a depth of more than 200 miles and now were fighting Chinese defense troops 200 miles north-east of Tihua.

The official report followed closely a similar report by semi-official sources. Until today the ministry of national defense had suppressed a stream of excited cables to local newspapers by their Chinese correspondents in Sinkiang reporting details.

Central News agency reported in a dispatch from Tihua that "bitter fighting" was continuing between native Sinkiang troops and invading forces.

### Planes Strafe Civilians

The dispatch, the agency said, reported that warplanes accompanying the Mongolian cavalry and other troops into Sinkiang strafed Chinese troop concentrations and bombed and strafed civilians and towns in the invasion path.

No Chinese government official here immediately confirmed these reports but an official military spokesman referred The Associated Press to the Central News agency report. The agency is a government organ.

Military sources said it was be-native troops and a few trained native troops and a few trained Chinese officers comprise the western Sinkiang garrison.

The region has been in a state of continued unrest since Outer Mongolia was granted independence.

Military observers said that because of the great distances involved and the lack of readily available forces it was unlikely that the government would dispatch adequate defense forces to Sinkiang.

## 2 PATROLMEN ARE APPOINTED

James Irey, Jr., and Ray Hiltbrand Named To Salem Force

Effective Monday James Irey, Jr., of 1134 Oak st., and Ray Hiltbrand, 348 W. State st., will become city patrolmen, Safety Director, C. E. Phillips announced today.

Phillips announced the appointments after receipt of a certified list of five men who qualified for the appointments by a civil service examination held in May.

Both appointees are ex-service-men.

Irey is employed at the Golden Eagle store, while Hiltbrand is now working at the Deming Co. plant.

Both men will be assigned to the night force, under Captain James Hassey, after a month of fundamental training on shifts with experienced men, Police Chief Nerr Gaunt said.

The permanent addition to the force brings the total number of patrolmen to seven, plus Chief Gaunt and Capt. Hassey. Two of the seven patrolmen, Martin Lutsch and Howard Forney, are traffic men, however, enforcing the meters in the downtown area during the day time.

## ACHESON NOTE TO BULGAR PREMIER REPORTED FOUND

(By Associated Press)

BUDAPEST, June 10.—A leading Hungarian Communist said today that a letter had been found from Dean Acheson, former U. S. under-secretary of state, "promising support" to former Premier Ferenc Nagy, whom the Communists have accused of plotting to overthrow the republic.

Jozsef Reval, Communist member of parliament, writing in the Communist newspaper Szabadsag, said also that Nagy had sent a letter to Acheson in January concerning the "Truman doctrine." This, he added, was several months before the Truman doctrine was promulgated and so labeled.

"When the son of Ferenc Nagy went to America," the long article said "Nagy sent a letter to Acheson demanding assistance so that 'the Truman doctrine' would adequately be applied to Hungary."

"Also found was Acheson's reply, promising support."

The article was published as the Hungarian parliament was summoned into session to hear Premier Lajos Dinnyes outline his policies for the first time since the Communist-inspired coup which ousted Nagy from office.

## Massillon Killer Of Babies Did Crime In 10 Minutes

(By Associated Press)

MASSILLON, June 10.—The killer of two tiny babies in the pediatrics nursery of Massillon City hospital Friday night completed his work in 10 short minutes, City Hospital Supt. E. J. Lincke disclosed today.

In a news conference, Lincke said it has been established definitely the two infant girls were found dying at 7:45 p. m.

Yet, 10 minutes earlier, the nurse who found the battered babies had seen them sleeping peacefully.

"The 7:45 p. m. time is definitely established," said Lincke, "but I asked Nurse Marian Silleck how she knew, and she said that in checking the babies' pulses for signs of life, she looked at her wrist watch and saw the time."

Lincke said it was customary for Nurse Silleck and other City hospital nurses to check the pediatric nursery every five or 10 minutes. Supplies were kept there.

Besides Diane J. Brand, 10 weeks, and Rosemary Morton, nine weeks, there were 17 other patients on the fourth floor of the hospital Friday night, the eldest nine years of age.

There were five or six visitors, another nurse, Murna Crost, and Nurse Silleck.

All of the visitors to the fourth floor departed before the time of the deaths except one, said Lincke. The superintendent said Ralph Fricke, of Canal Fulton, was visiting his son in another room until 8:00 p. m.

## Discount Accident Theory

Previously, Fricke had told police he saw two small children playing in the hallway during his visit.

Stark County Prosecutor D. Deane McLaughlin discounted the theory that the two babies might have been dropped accidentally, and received a theory of murder, possibly by a maniacal killer. Police Chief Stanley W. Switzer had considered the maniac theory, but later said his investigation had turned toward the possibility of an accident.

Lincke said that after the babies died, shortly after 9 p. m. and 10 p. m., McLaughlin arrived on the scene and began his investigation.

The superintendent told reporters that he asked a friend, James Dooley, a free lance writer, to help him prepare an announcement about the babies' deaths, and that was about 4 a. m. when the announcement was completed.

First notice to the Massillon police was about 8:15 p. m. Friday, and the first officer to arrive Friday night was Capt. Clifford Davenport, Lincke previously had said.

Meanwhile, Assistant Stark County Prosecutor W. Bernard Rodgers said another voluntary lie detector test would be given in about a week to Harry E. Morton, father of one of the infants found dying of fractured skulls in their cribs.

Morton, 36-year-old electrical worker, volunteered for the test yesterday at police headquarters in Cleveland. Rodgers and David L. Cowles, superintendent of scientific investigation for the Cleveland police department, both said the test was "inconclusive."

Rodgers, who said the examination was "merely routine," emphasized that Morton was not under arrest.

## PLANS ADDRESS IN PARLIAMENT

(By Associated Press)

ABOARD PRESIDENT TRUMAN'S SPECIAL TRAIN EN ROUTE TO OTTAWA, June 10.—President Truman crossed the northern border today on his goodwill mission to Canada.

L. S. St. Laurent, secretary of state for external affairs, and other notables, extended an official welcome as the United States chief executive arrived at Rouses Point, N. Y., at 11:20 a. m. (Eastern Daylight time) aboard an 11-car special train.

St. Laurent was accompanied by Ray Atherton, United States ambassador; W. H. Measures, chief of protocol for Canada; and three honorary aides-de-camp to the President, Commodore F. L. Houghton of the Royal Canadian navy; Brig. S. P. Clark of the Canadian Army and Air Commodore D. M. Smith of the Royal Canadian air force. They boarded the train for the trip on to Ottawa.

The Governor General and Lady Alexander and Prime Minister W. L. Mackenzie King head the welcoming party for President Truman in Ottawa.

## To Address Parliament

He took his wife and daughter along for a three-day visit in Ottawa where he will address the Canadian parliament at 11:45 a. m. tomorrow.

The United States chief executive was in the best of spirits as he boarded this 11-car special train last night.

He left until after his return to Washington Friday a decision on a four-billion dollar tax reduction and new curbs for labor unions. Bills embodying these changes were sent up to the White House by a Republican-controlled congress last week.

He concentrated, instead, on plans to set another example to the world of how the peoples of the Western Hemisphere live together in peace and harmony, negotiating differences if any arise.

The flight of the President to Mexico in March set a pattern for this visit to the northern neighbor of the United States.

Mr. Truman hopes to work in a visit to South America before the end of the year.

## It's Still No Crime

New Jersey's Supreme Court struck a blow for freedom when it ruled as follows in the case of a girl charged with vagrancy: "It is not an offense to wear blue overalls or to ride by gratuitous rides from Bangor, Me., to Florida, or to sleep in a truck, or to pick potatoes in one or another part of the country, or, with \$14 in pocket, to be temporarily out of employment on the way from completion of one job to the search for another."

Thus is reaffirmed a condition every American hopes will always prevail in this country—that every person has the right to go when and where he pleases and by whatever means he chooses as long as he doesn't interfere with the safety or comfort of others.

## Who Says So?

Not since the power lobby showered Congress with telegrams and mail more than 10 years ago has there been such a demonstration as labor unionists are staging to stop labor reform legislation.

This does not question their right to petition Congress. It does not question their right to stir public opinion, even to the extent of having the mayor of New York go on the air with a name-calling speech.

It does question the propriety, or rather the wisdom, of making the pending legislation seem to be some sort of Armageddon for labor, because it isn't. It is no more Armageddon for legitimate unionism than the issue over abuses by public utilities was Armageddon for the power industry.

Extremists are always ready and eager to misrepresent the moderates in this country. There must be a great many members of unions wondering what all the excitement's about—why so much of their money is being spent to block a legislative proposal that is intended only to keep union leadership from hanging itself in too much rope.

Is the uproar to save labor unionism as one of the pillars of the American republic, or is to save certain labor unionists who have been using the pillar for their own selfish purposes?

## There's No Question

Prejudice disguised as "practical considerations" is the only thing that can bar America's traditional open-door to displaced persons who would be admitted under a proposal pending in the House of Representatives.

There can be no question, apart from prejudice, about admitting as many as possible of these displaced persons to refuge in this country, if they seek it. Most of them are Catholics and Jews whose religious and political principles got them into trouble with the government of Russia. Their claim to sympathy and assistance is unassailable.

The only reasons the United States could give for not making the simple adjustments in its immigration quotas that would admit them are unworthy of American principles, or contrary to national experience with immigration in the past. It isn't being suggested that existing bars to immigration be lowered—only that certain quotas be shifted. Quotas now in effect haven't been filled for many years.

The United States has a chance to prove its devotion to preserving the rights of individuals against totalitarian threats, a chance that might mean more in the long run than the Truman Doctrine for preserving the rights of governments.

## It Wasn't Such a Hot Idea

The third-party mischief making Democrats sweat goes back inside their own party to some elegant masterminding by the Roosevelt faction after the 1932 election.

It was decided then that the soreheads deserting the discredited Republicans should be taken in by the Democratic party and Harold Ickes and Wallace were chosen as symbolic refugees. They were seated at the party table, at the expense of regular Democrats, and loaded to publicly for the effect on dissidents in all parts of the country. It was a shrewd stroke of business. Everybody admired it, except regular Democrats who wondered how deep the loyalty of a Wallace would be in an acid test.

Wallace, Ickes and the followers who went for their swamp-water cures eventually had dreams of being bigger than the Democratic party, though their purges and palace revolutions never quite came off. But by 1944 they were stout enough to dream of capturing the presidency by merely continuing Wallace in the vice presidency and waiting for Franklin D. Roosevelt to die. That scheme didn't come off either, and it marked the end. Things never were the same thereafter. Today, they are distinctly different. Wallace, Ickes and all the others have turned on their "friends."

Mr. Truman came by his third-party trouble honestly. It belongs in the family, one of the most unwellcome chickens that ever came home to roost on the perch of political expediency—a memorial to an era in which Tommy the Cork used to say the main idea was "hit 'em in the jugular."

## Ready For The Ballot

Finally ready for the November ballot is the Ohio veterans' bonus referendum. Senate-House conferences eliminated several provisions, one of which would have excluded payments to veterans with rank of major or higher. Also ruled out were an extra penny-a-pack tax on cigarettes and allocation of \$25,000,000 from operating revenues for bonus payments.

To raise the necessary \$300,000,000, the legislature decided on a statewide real estate levy of 75 cent per \$1,000 and a monthly allocation of \$1,000,000 from state revenues.

Thus the legislature lives up to its promise to pass the bonus decision along to the voters. It is about as equitable a bill as can be drawn. The operating budget is unaffected and payments are to be made re-

gardless of rank. From here on it's a matter for the voters to decide.

## The Stars Say

For Wednesday, June 11  
By GENEVIEVE KEMBLE

UNDER a very expansive and benevolent stellar influence there should be excellent prospect for a prosperous, progressive and happy state of affairs. Large interests are at stake, dependent on the friendly and practical support of those in influential positions.

Impressed by astute and clever ideas, fresh plans or techniques, in which an entirely new point of view is present, may precipitate quick grasp of exceptional openings. But haste and stress may be futile. Weigh all factors carefully, make changes cautiously.

If It Is Your Birthday

Those whose birthday it is stand at an open door to great opportunity, with an expansive and far-reaching prosperity, accomplishment, cherished goals, with personal happiness and fulfilled hopes and wishes. There should be growth and expansion in assets, possessions, finances and credit, with opportunity for major attainments and felicity in business, professional and romantic affiliations.

But rash or excitable grasp of these or rushing headlong into new situations might work against full realization of fondest dreams. Be reasonable with influential personages.

A child born on this day may have high aspirations and lofty ambitions, with much efficiency, which however may be undermined by rash or impulsive emotions or decisions.

## GUARDING YOUR HEALTH

Fibrositis, Or Painful Tissues

BY HERMAN N. BUNDESEN, M.D.  
The muscles are covered and bound together by fibrous tissues known as fascia and attached to the bones by similar structures called tendons.

Sometimes, especially after exposure to cold, these fibrous tissues may become extremely painful, causing the condition known as fibrositis. Since the affected tissues are especially numerous around the joints, such an attack is quite likely to be mistaken for rheumatism.

While we do not know the exact cause of fibrositis, we are sure that cold, sudden chilling, dampness, and changes in the weather can act as the trigger which sets off an attack. Unrecognized injuries may act in the same way. Other possible causes are infections elsewhere in the body, as in the teeth, tonsils or sinuses.

According to Dr. William Tegner of London, England, it has also been suggested that fatty tissue in or under fibrous tissue may in some cases become edematous, that is, fluids may collect in the fats. This causes pressure and may lead to fibrositis.

Lower Part of Back  
Fibrositis occurs particularly in the lower part of the back, in the buttocks, around the shoulders and the neck. Acute fibrositis comes on suddenly, without any warning symptoms, sometimes after exposure to cold, damp or temperature changes. It may also follow strain and exertion. Pain in the affected area may start on movement, and is relieved by rest and warmth.

In some cases it may be so severe as to incapacitate the patient. The muscles may be tense or contracted. Whole areas of muscles may be very painful when pressed on.

Making a Diagnosis  
As a general rule, it is not difficult to make diagnosis of acute fibrositis. However, the condition may be chronic, that is, long continued. In such instances, the pain is less severe but more persistent than in

the acute disorder. It is also relieved by rest and warmth but when the patient gets up and moves about after resting, the pain may be worse than before.

The patient also complains of pain and stiffness in getting up in the morning or after resting in a chair. Gradually after more activity, the pain disappears and does not return so long as he moves about. In treating acute fibrositis, rest, heat, and the giving of pain-relieving drugs are all helpful. Massage particularly may hasten the recovery. Recently the use of injection of pain-relieving preparations or local anesthetic directly into the affected areas has been found of value.

In chronic fibrositis, heat, massage and injections also are helpful.

An effort should be made to find and eliminate infection in the teeth, tonsils, sinuses and elsewhere in the body.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

## This Worm turns a Big Car

**Buick**  
Care  
Keeps  
Buicks Best

You know how it can be. A Buick can steer with a finger-touch. One of the secrets is a stream of 66 steel balls that circle the worm on the steering column. With these balls there is so little friction that steering is featherlight—so little wear that the gear stays taut and firm without frequent take-ups.

To keep this steering gear in the shape Buick intended, the authorized Buick dealer lubricates it with just the proper oil. Anything heavier would make steering stiff in winter—anything lighter fails to give full protection against wear.

It's a typical example of how Buick care keeps Buicks best. The same holds true with every part of the car. So whatever your car needs, a lube job, a tune-up, a major or minor repair, come in and get the extra satisfaction and assurance of longer car life with Buick car care.

## CONGRESS RECALL PLANS DISCUSSED

International Development Could Mean Special Session

(By Associated Press)  
WASHINGTON, June 10—Senator Dworshak (R-Idaho) said today Congress must arrange its adjournment so that its own leaders, as well as President Truman, could call it back for a special session in the fall if international developments warrant.

Republican leaders are planning to make Congress subject to recall by Senator Vandenberg (R-Mich.), presiding officer of the senate, and speaker Martin (R-Mass.) of the house when it adjourns July 31.

Adjournment resolutions permitting the congressional leaders to call a special session were common during the war.

"If our country is to maintain its bipartisan foreign policy, the legislative branch should assume joint responsibility for charting our international course," Dworshak said in a statement.

"The security and welfare of our nation demand fullest coordination between the President and the Congress, and we cannot justify giving the chief executive sole authority over foreign affairs during the anticipated five-month adjournment." Dworshak said that international trends "point to the likelihood that during the fall months there will be decisive developments vitally affecting world peace."

## 2 Men Burned to Death In Collision of Trucks

ELYRIA, June 10—Two men were burned to death in their truck, carrying oxygen tanks, when it collided with another truck Monday on U. S. Route 20 at North Ridgeville, east of here.

The driver of the other truck, identified by police as Walter Calholy, 50, of Elyria, escaped injury. As the fire destroyed the oxygen tank, tanks of the gas exploded, shattering windows in a nearby house.

The two were identified by Lorain county sheriff's deputies as Joseph Dorogi, 38, Fairview Village, near Cleveland, a driver for the Air Reduction Sales Co. of Cleveland, and August Sully, 28, of Cleveland, his assistant.

# LETTERS TO THE EDITOR

## Visitor's Impressions

Editor, The News:  
My wife and I had the privilege of spending three days in your city in the home of Mr. and Mrs. Leeland Taylor.

I am pastor at the Baptist church (Iglesia Bautista) at Colon, Cuba. We came for a vacation to this country.

I beg of you to publish the enclosed letter which I addressed to Rev. Ray P. Hunter.

ENRIQUE PINA.

Just a few lines to express to you and your people our deep gratitude for the happy days and experiences we enjoyed while in your city. It was very much impressed with your community. Your city is a very nice one. My attention was attracted by the well paved streets, the pretty gardens, trees and homes.

I want to mention five things that I have in my mind: The post-office building, High school, Public Library, the Veterans building and your daily newspaper, "Salem News." I live in a city as large as yours but I am very sorry to say that we don't have those buildings nor do we have a daily newspaper.

Our friend L. H. Taylor took me to the Deming Pump factory. I was surprised to see it. Just to think of the efforts of the men who built such an industry. It reminded me of the motto "Think" that was on the wall of the offices.

On Sunday evening my wife and I with Mr. and Mrs. Taylor, had the opportunity to attend the baccalaureate service in the High school. There we could see the greatness of your nation represented by the three institutions that make up a country.

First, the homes represented by the students and parents. Second, the school represented by the teachers and the building in which the service was held. Third, the churches represented by the pastors.

I never have had such an opportunity to see these three great institutions of the human race working together. Also I was impressed by the efforts that the members of your church and community are putting forth to rebuild your temple.

When we were at the bus station and heard you introduce yourself to a gentleman who was there, and later learned that he had made a substantial aid to the building fund, though not a member, made me think how much the people appreciate what a church in a community really means.

And for the present, slide over performance — with that big bonnetful of Fireball power, nobody's going to challenge you much on the open road.

What else has the trim Buick got that others can't quite come up to?

You find one big answer where the cobbles are plentiful, the car tracks tangled, the bumps big.

This brawny traveler has a ride — a smooth, level, easy stride that makes you think of a canoe drifting in quiet waters.

One reason: It was Buick that first in-

troduced the American public to soft, gentle coil springing on all four wheels.

It was Buick that first made it possible for each wheel to step over bumps as they came along, leaving the frame and body to pursue their level way undisturbed.

Buick's coil springs keep their gentle softness always. They need no greasing or attention. They are unaffected by dirt, wear or the weather, and breakage is practically unheard of.

The net of it all is that you put yourself on Easy Street when you seat yourself in a Buick. You make every road a better road — every ride an adventure in smooth and buoyant comfort.

Why not drop in and learn more? Whether you have a car to trade or want to talk on a "clean deal" basis, you'll always find a warm welcome here.

## DEPARTMENT OF INFORMATION

Activity at the Salem Golf club is booming again this season. With a record number of members, the club is experiencing one of the most active years in history, combined with some superb early season shooting despite an unusually wet spring.

To date the club champion of 1946, Rudy Schuster, has posted the best score—a 74. He also has racked up a 76 in another good round.

Among some of the other best scores posted are Gene Sommers' 75, Dick Dennis' 77 and a 79 by Bob Buckholdt on Sunday.

Buckholdt's score on the rain-soaked course is an exceptional one, for water and general sloppiness was the word on the fairways. Many didn't attempt to play.

Pro Andy Mocsary is being kept busy so far giving lessons to the ambitious, who are strenuously trying to improve their games.

Salem is fortunate in having a course that drains so well. Several district courses, including Sleepy Hollow, near Alliance, were late opening this season because the excess water made it impossible to get the grounds in shape.

## DEPT. OF CONJECTURE

Say what you will, the life of a softball manager in Salem isn't any bed of roses.

Take the case of Ralph Mancuso for instance.

Ralph found himself in a trying spot the other night when his Crescent team clashed with the Diner and did what seemed the logical thing to do—but it flopped about as miserably as it possibly could have.

We're speaking of that decision to pass the Diner's Bob Miller intentionally to load the sacks, only to have Johnny Hart pepper the first ball pitched to him for a homer—and four runs.

Ralph had a bad night all the way around, but Miller did justify the "passing" action in his next trip to the plate. He slapped out a long double, the only other hit the Diner got off Pitcher John McQuiston that night.

The next top-notch tilt on the books now are the Diner-Amvet tilt, and then the Leontina-Amvet tilt. A lot of shifting in standings may be done before those games are past.

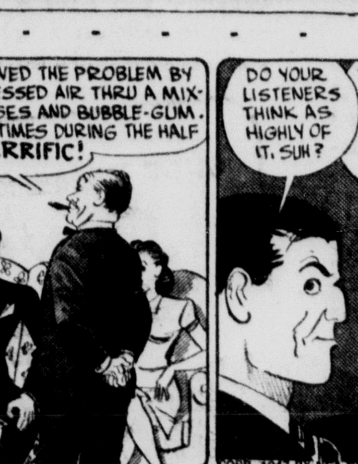

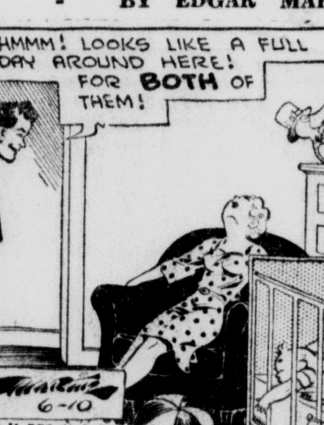

## FOOTBALL ITEMS

Charlie Franks and Francis Lanney, ex-GIs and Salem gridgers, will leave next Sunday to start summer school at Miami university in Oxford.

They are the latest of a top-notch group of "rookies" Coach Sid Gillman will have at Miami this fall and they are planning to attend the six-week summer course to get in shape and become well enough acquainted with Gillman's system to have a chance for the varsity.

Others from this district going Redskin way are Leontina's Dave Driscoll, Lisbon's Allen Weber, possibly Tony Martineau of Alliance and about six of last season's Alliance Aviators.

# Giants Stage Terrific Rally To Whip Pirates

## SCORE EIGHT IN 8TH INNING TO BEAT BUCS

Walker Cooper Is Proving His Worth For Fast-Moving Outfit

By JOE REICHLER

Associated Press Staff Writer  
A \$175,000 bust last year, big Walker Cooper is proving to be a quartet of a million dollar beauty this season.

The husky New York Giants' catcher currently is hitting at .303 and ranks fourth in the league 33 runs batted in.

Cooper slammed two home runs yesterday as the Giants slugged out a 13-10 victory over the Pittsburgh Pirates at the Polo grounds. The win, coupled with Cincinnati's 9-6 victory over Brooklyn at Ebbets field last night, gave the Giants undisputed possession of first place in the National League.

With most of the crowd of 13,069 walking toward the exits, the Giants, trailing 8-1 in the last of the eighth, suddenly shelled starter Kirby Higbee, Edson Bahr, Hank Behrman, and Art Herring for eight hits and two walks, good for eight runs to take a 9-8 advantage. Coopers first home run with one on gave the Giants the one-run margin.

Pittsburgh fought back with two in the top of the ninth to go ahead 10-9, but the Giants came storming back with four in their half, Cooper's second circuit clout with two aboard giving him five runs batted in for the day.

In the other National League games, the Braves, behind the one-hit pitching of Charlie (Red) Barrett, shut out the Chicago Cubs in a night game in Boston 1-0 and the St. Louis Cardinals divided a doubleheader with the Phillies in Philadelphia. The Redbirds won the opener 4-2 but dropped the second 2-1 in 15 innings.

In the sixth inning of the night-cap Stan Musial swung, his bat broke in half and part of it sailed out and hit Rowe on his pitching arm.

The veteran hurler, whose record stands at seven victories and one defeat, suffered a deep cut on the elbow. Manager Ben Chapman said he did not think the injury was "too serious."

The Chicago White Sox overcame an 8-2 New York lead and won 9-8 in 10 innings.

The Detroit Tigers were soundly

First Home Run Inside Bill Veeck's Fence

Don Gutteridge, Boston third baseman, slides into home plate to complete the first home run inside the outfield fence erected by Bill Veeck, Indians president, this year in the Cleveland Stadium. Catcher Al Lopez attempts the putout as Umpire Ed Hurley and Boston's John Pesky and George Tebbetts watch the play.

## 65,000 EXPECTED TO SEE CLEVELAND BATTLE RED SOX

Tribe Loses to Boston 5-0 In Series Opener On Monday Afternoon

CLEVELAND, June 10—Some 65,000 fans are expected to flock to Lakefront stadium tonight to see the Cleveland Indians battle the Champion Boston Red Sox.

Topped back to a 500 rating and a three-way tie for third place with Boston and Philadelphia, the Tribe's two homers yesterday were overshadowed by three ringing circuit clouts by the Beantown sluggers as Boston won 7-5 in the opener of a three-game series.

Shelling starter Don Black from the mound, the Sox took a 5-0 lead in the first three innings. Birdie Tebbetts rapped a single in the second and Don Gutteridge slammed an inside-the-park homer, and Bobby Doerr blasted a two-run homer in the third.

Cleveland's offensive got under way in the third when pinch-hitter Hank Ruszkowski doubled and Hal Peck slammed his sixth homer into the right field stands.

Manager Lou Boudreau, who moved into the league batting lead, homered in the fifth to tie the score, 5-5, after the Indians scored a pair of runs in the fourth on a walk, singles by Eddie Robinson and Al Lopez, and Sam Mele's error.

In the eighth, Mele rapped one of Relief Pitcher Bryan Stephens' pitches into the left field seats to score two runs.

## Tax Bill Action Due End of Week

(By Associated Press)  
WASHINGTON, June 10—President Truman will withhold action on the income tax reduction and labor bills until he returns next Friday from Canada.  
Telling reporters this today, Presidential Secretary Charles G. Ross said "thousands of letters" have flooded into the White House on both measures.  
"Most of the mail is concerning the labor bill, and most of it urges a veto," he said. "The mail comes from both individuals and organizations."  
The President will leave Washington tonight and will address the Canadian parliament on Wednesday. He is to arrive back in Washington Friday night.  
He has until Monday to act on the tax bill which reduces income taxes by 10.5 to 30 per cent. Unless he signs or vetoes it by Monday midnight, it will become law without his signature.  
He must act within 10 days (excluding Sundays) after a measure reaches him.

We invite comparison in quality and price. For more than 45 years, ARBAUGH'S have sold you merchandise at prices as low as, and more often at lower prices than those offered by stores making the "biggest noise" about so-called bargains. We think

you are intelligent, that you are not "fooled" by such advertising; stressing inflated values and false deflated prices, shop and compare — many have done so and a majority have returned to buy at ARBAUGH'S. We're a bit old-fashioned — and — we're honest!
